Flip-Up Gauge Wheels, ProSWEEP Technology

Introducing the **NORTEC** line of *Clean Sweep Rotary Broom*

**There's a NEW kid on the block!**

The Clean Sweep rotary broom all started with a clean sheet of paper. Why are all rotary brooms designed and built the same? Nortec engineers are thinking outside the box. Performance, strength, ease of operation, dust control, and broom design/options. Dust suppression is not an after thought, it's a design criteria. NORTEC takes dust control seriously and is doing something about it with forethought, like front-mounted gauge wheels. In the future, this industry-changing feature will not be an option, it will be standard. If you're looking for power, here it is. PowerTEC wheel motor, broom-drive system. The motor and frame are matched as a working system. The ZD motor has the power and performance you're looking for and the reliability you demand.

## Best in Class

Hood Design, Hydraulic Motor, Sweeping Action

Rear Spray Nozzle
